WIRSICH

12 September 1945

TO : AB 12, Munich

Info : OPS, Amzon

Subject : Summary of Preliminary Vetting: Friedrich LINDE

1. There is no information in our files here, or in those available to us in Washington or London concerning Friederich LINDE whom OPS submitted to us on the 13th of August. The Washington check included R & A and the Commerce Department.

2. There are no further developments on the WIRSICH case. Does W.T. feel he has all the information he needs now? We don't know what is holding up London's reply re WIRSICH. The office there owes us answers on over 70 cases, so you can see it's hard to expect prompt action from them these days.

3. Thank you for the fine job on BRUCKMOSER.

4. When you are interested in investigations of your men in areas which you can't reach yourself, we suggest that Berlin is at present about the most accessible. AB/30 has been doing five star work there, and his interviews with references have destroyed someone's predisposition toward at least eight individuals already.
